PROFILE

I am a junior Full-stack developer who has completed an apprenticeship with IT Career Switch and further developed my skills through platforms such as Codecademy and Udemy. During my training, I successfully completed two real-world projects to specification, demonstrating strong coding ability and proficiency across a wide range of programming languages.

I am a highly motivated individual who loves coding and enjoys learning new technologies. With a proven ability to adapt, work effectively in a team, and perform well under pressure, I am eager to continue growing as a developer and contribute to a dynamic, forward-thinking team.
